Herman:

This is to receipt for all the traces you sent. They are extremely interesting and I believe they represent a possible CP net in the New York area. Am attaching a couple of questions for your use -- which may be of help in your writing the RPT for the FBI. Please return when you are finished with them.

Noticed that we still need the RPT report on the case of John HULATIN.

We've done a good job of digging on this case. In addition leads were run down in all cases each as has been done. All done.
